ULTRA HD

The IPO-VF5MP camera from Partizan operates as an 8MP resolution device within the IP CCTV Systems category. It features H.265 video compression, supporting efficient data transmission and storage. Equipped with ONVIF protocol support, this camera integrates easily within various security systems, while its Power over Ethernet (PoE) capability simplifies installation by allowing power and data to be delivered through a single cable. The unit is constructed from steel, weighs 900 grams, and operates within an input voltage range of 220 to 240 volts.

Product	
Product brand	Partizan
Product category	IP CCTV Systems
Product model name	IPO-VF5MP
Product SKU	1231231
Technical	
Color	white
Dimensions (W x H x D)	88 x 86 x 136mm
Material	steel
Weight	900g
Input Voltage	220-240V AC
Battery Capacities	5000mAh
Battery Included	yes
Available Voltages	240V
Warning!!! Don't leave with kids	

test
